

ENGINEERING DEPARTMENT

Master's degree Engineering and Computer Science (ECS) – Academic year 2023/2024

For admission to the master's degree in **Engineering and Computer Science (ECS)**, a level of knowledge of the English language at a standard European level B2 is required.

Knowledge can be demonstrated with recognized **certifications, of the same level (B2) or even of a higher level (C1, C2) issued by a certifying agency**, i.e., recognized as such for the guarantees provided regarding the standard of exams, by the Ministry for University and Research.

The most common certifications issued in Italy are:

- ESOL (issued by University of Cambridge/British Council)(certifications without expiration),
- GESE Esol e ISE Esol (issued by Trinity College London)(certifications without expiration),
- TOEFL (issued by Educational Testing Service) (certification valid for two years),
- IELTS (issued by BritishCouncil) (certification valid for two years)

The above certifications must be sent to the Unità Operativa 7 IngMift by e-mail addressed to protocollo@unime.it. Alternatively, it is advisable to also send certifications other than these. They will be forwarded by the U.Op. 7 IngMift to the Degree Course Coordinator for an evaluation by the Degree Course Council.

The student can also produce the result of a verification test*, carried out at the Engineering Department

UniMESTONE Platform

The achievement of the required level of the English language **can be acquired by students enrolled from the a.y. 2021/2022 onwards** by passing a Rosetta Stone verification test*, carried out at the Engineering Department. Students enrolled in previous academic years should contact technical support at supportounimestoneingegneria@unime.it.

*To book for the verification test, go the webpage: <https://ingegneria.unime.it/en/didattica/unimestone/proficiency-test>
